VOL. XVIII.

For the prevention and cure of BILIOUS and MALIGNANT FEVERS is recommended.

Hahn's ANTI BILIOUS PILLS
THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance; they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hahn's true & genuine German Corn Plaster.
An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,
So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat, &c.

The United States Gazette and the True American, two old Philadelphia federal newspapers, are consolidated into one, under the title of *Tax Union*.

March 16, 1818.

The amount of Bank Notes, Post Notes, Drafts, Bills of Exchange and Checks, (saved and recovered from the robbery of the Mail of the 11th) is about ninety thousand dollars, and now in possession of the General Post Office. As soon as the mutilated fragments of the addresses and envelopes can be arranged, with their proper contents, they will be forwarded by mail, as originally designed.

A descriptive schedule of the whole will be immediately published and transmitted to the several sections of the U. States, for the information of those concerned.

Notices were immediately issued to the banks, merchants and others, in Philadelphia, of the robbery, and an express despatched to N. York, to guard against the payment or acceptance of drafts, checks, or post notes, which may have been robbed from the mail, and not yet saved or recovered.

The Supreme Court adjourned on Saturday after a laborious session.

LAW INTELLIGENCE.

The case of the Trustees of Dartmouth College vs. William H. Woodward has been argued before the Supreme Court at this term. The argument was concluded on Thursday, and on Friday morning the chief justice observed, "The judges had conferred on the cause between the Trustees of Dartmouth College and William H. Woodward. Some of the judges have not come to an opinion on the case. Those of the judges who have formed opinions do not agree. The cause must therefore be continued until next term."

[ibid.]

A person picking up a newspaper, the other day, read as follows: "The Legislature of Maryland has granted characters to five new banks." "It is a great pity (a bystander replied) that they had not taken the same care of some of the old ones; for several of them are very much in want of characters." But on examination it appeared the grant was *charters*, a thing that very often exists entirely distinct from *character*.

WHA. MEN.

Observers have ascertained, that the present winter thus far, has been colder than any former one since that of 1778-9; that that was colder than any one since 1779-80; and remarked, that these three cold winters have occurred on the years when a *Lunar Cycle* (of 19 years each) has been completed. How the atmosphere may be influenced by the revolutions of the Moon (if it be the fact, as asserted, and which the above epochs make probable) is left for the illustration of the wise. One thing is certain, that our fond anticipations of enjoying Italian winters in New-England, if not congealed, are pretty well chilled.

[Boston Daily Ad.]

The London Gazette of January 10, notices the appointment of Maj. Gen Sir Peregrine Maitland, to be Lieut. Gov. of the Upper Province of Canada, in the room of F. Gore, esq. resigned.

From the Savannah Museum.

St. Mary's, March 1.

We have witnessed in this place to-day a most melancholy scene—the burial of a Mr. Keesley and a Mr. Thornby, two fine promising young men, neither of them twenty-one years of age, midshipmen, belonging to the John Adams.

With Mr. Keesley, in particular, the writer was somewhat acquainted: one meets with but few more agreeable and prepossessing in every respect than he was. There was every reason to expect that so fair a flower would on some future day become one of the brightest ornaments of the rising navy of our country.

These young men were so severely wounded in a rencontre which took place between them on Saturday evening, that they both expired yesterday—the earth, to-day, receives their cold remains! But a few days past, they were blessed with health and strength, and were enjoying that hope which is the companion of youth, and which was particularly flattering to them. A trifling disagreement ensued—that fashionable, folly, called *impeccable honor*, demanded that they meet and fight—and they shortly appear, unaided, in the presence of their Creator, regardless of the expectations of the future, of weeping parents and connexions, or the hidden mysteries of the grave.

Perhaps nothing is more to be deplored than the present received opinion on the subject of single combats between countrymen, and often between persons who have been friends. It is an unfortunate way to settle difficulties; for the aggressor is oftener victorious than the injured. In an affair of honor nothing is gained, and every thing hazarded.

Baltimore, March 16.

Prices Current at Gibraltar about 1st of January, received by the Gypsy, Captain Lovett, arrived at this port.

Flour 310, dull, on board; rice 7 doz coffee 18; sugar Havana white, 15s 15; Brazil do 11s 15; Martinique do 9s 10; tar 2s 2; manufactured tobacco 11s 12; Virginia best 8s 9; other articles in proportion except fish, which had taken a rise from 4 to 27 per cent, in consequence of a report that all the fish in Newfoundland had been consumed by fire; pork and beef were in some demand.

[American.]

Capt. Lovett, of the brig Gypsy, arrived at this port yesterday from Palermo, states that the new act was to be enforced on the first Jan. which places Sicily under the same restrictions (with regard to commerce) as Naples has heretofore been—the same duty on imports and exports was to be laid; and it was undenied the same port charges would be required. The king had been for some time past removing the cannon from Palermo to Naples, where there had been a large quantity collected and deposited during Murat and Bonaparte's reign. The people appeared to be very much dissatisfied with the proceedings of the king, and many of them (who spoke the English language) did not hesitate to speak their sentiments openly, particularly some of the Irish, from whom it was understood the king intended to take a great part, if not all the land which has ever been held by them for the support of the church—it left strong impressions, that if this measure is pursued, serious consequences will be the result.

Markets in Sicily were very dull—coffee selling at 14 to 19 cents, coffee 25, rice 6, refined sugar 18, Havana white 14, 15 and 16, rum 65 cents per gall, tobacco no sale. The market generally well stocked, a great many vessels having arrived from England, &c. 13th. touched at Gibraltar and sailed the 17th. U. S. ship Franklin arrived at Gibraltar 11th, in 12 days from Portsmouth (E.) and sailed 15th for San Cruz.

It was reported at Sicily that one of the East India Company's ships had been spoken in the Mediterranean, bound to Malta, and many of the British merchants in Sicily anticipated an opportunity for great business in articles of her cargo.

[ibid.]

From the Charleston Courier, March 11.

VERY LATE FROM ENGLAND.

By the ship Sally, captain Watson, arrived here yesterday in the short passage of 38 days from Liverpool, we have received London papers to the 27th, and Liverpool papers to the 29th January, both inclusive—nearly a month later than before received. Some extracts from them will be found in this morning's Courier; the most material of which relate to the state of the markets, there being nothing politically important.

The London papers contain the speech of the president of the United States at the opening of congress, with some flattering remarks upon its amicable temper, and the flourishing state of this country. There is much speculation in the English prints as to the views of the United States in taking possession of Amelia Island.

In the week ending 17th Jan. 11,000 bags of cotton had been sold in Liverpool; among which a small lot of sea islands brought 3s 8d.

January 27.

The demand for cotton continues very moderate, and sea islands are heavy at 21d; a parcel of 300 has been sold at 20 3-4d, and 30 1-2d was offered and refused for an entire cargo of nearly 1000 bale. Very fine sea islands are scarce, and for very choice marks 2 a 3d advance has been given—say 3s 3d a 3s 6d. Rice is lower—about 350 casks have been sold at 37 a 38s per cwt.

Prices at Liverpool, Jan. 29.

London, January 20.

We have received this morning the Paris papers of Saturday last. The project of the law for recruiting the French army was still under discussion in the Chamber of Deputies. There was not much novelty of argument displayed on either side. Those who objected to the law urged the same grounds of objection as preceding speakers, that it nearly resembled the old system of conscription; while those who supported it maintained, that as compulsory service was only to be enforced where voluntary enrolment proved insufficient, the spirit of the charter was not violated. If, indeed, the principle be admitted, that France requires an army to place her upon a proper footing of equality with the other continental states, it seems unreasonable to condemn the only means by which that principle can be practically adopted. Voluntary service must always be precarious and limited. Men who have any regular occupation are not likely to abandon it for a military life, especially in time of peace. That martial ardor, which, during war, may stimulate individuals, can form no excitement when war is at an end. We should not be sorry, however, if the amendment for taking an annual vote upon the army should be adopted. Such a check may tend to secure a state of peace; and we are glad, therefore, to find it so strenuously insisted upon by the Chamber.

LORD BYRON.

A letter from Venice of the 2nd Dec. received by a gentleman of Edinburgh on the 11th inst. says, "Lord Byron is here, but does not go much into society—he keeps four horses, which, with the exception of the brazen steeds of *Elysippus*, are the only animals of that species in the whole city."

The Speech for opening the session of Parliament by Commission was arranged at the Cabinet Council held yesterday at the Foreign Office. This morning the ministers proceeded to Brighton to submit it to the Prince Regent in Council for his approbation.

No amendment, we learn, is intended to be moved by the opposition. Indeed it is not yet publicly known, who is to be their leader. One report mentions Lord George Cavendish, another Lord Morpeth, a third Lord Milton, the latter however, is not very probable. Mr. Tierney would seem to be the most fitted for the station by his talents. None of the party will hear of Mr. Brougham. There is a special mediocrity of talents on the opposition benches.

Our readers recollect the unfortunate affair of the Count de St. Morcy, who was killed in a duel on the 21st of July last. His widow has instituted a suit against the survivor, accusing him of homicide. The latter being a Peer, the cause has been removed from the ordinary criminal tribunals, and the King has issued an Ordinance, constituting the Chamber of Peers a Court of Justice, for the purpose of conducting the necessary judicial inquiry.

The Journey of the Duchesse d'Angoulême to Bordeaux will take place in the ensuing month.

Wednesday last was to be observed with great solemnity throughout France, in commemoration of the day when the unfortunate Lewis the XVI. was murdered. None of the Parisian Journals were to be published on that day—and the Chamber of Deputies adjourned till Thursday.

Sailly, Jan. 20.—For several days past articles have been picked up floating a-

boat the shore, and by some small slaves which are oak, being found, it appears to us as if from an American vessel. Part of the bulkhead of a ship of about 300 tons have also been found. On the 5th a small boat, cutter rigged, from St. Agnes, with four men, went off to a vessel in the E. East when in the night a gale came on. She has not since been heard of, and is supposed to have foundered. One of the men has left a wife and four small children in great distress.

January 26.

There have been great fluctuations in the funds—Consols, which early on Saturday were 80 1-2, have to day been as low as 78 3-8—since then they have advanced, and at 1 o'clock were for Money 78 7 1/2, and for Account 79.

It is reported that the Right Honorable F. Robinson is to be the new Treasurer of the Navy and President of the Board of Trade and that the Right Hon. T. Wallace is to be the Vice President of the Board of Trade.

We have received two Flanders mails, one last night and the other this morning. An article from Berlin mentions a singularly rigorous punishment inflicted upon a Prussian Officer and his second for fighting a duel. The former has been sentenced to nine years imprisonment and the latter to four.

OPENING OF THE SESSION—PRINCE REGENT'S SPEECH.

The Session was opened this day by Commission. As soon as the Lords Commissioners had taken their seats in the House of Peers, the attendance of the House of Commons was commanded; and the Speaker of the House of Commons, attended by a large number of Members, having obeyed the summons, a Speech, of which the following is a correct copy, was read.

Speech of the Lords Commissioners, To both Houses of Parliament on Tuesday Jan. 27, 1818.

My Lords and Gentlemen,

We are commanded by His Royal Highness the Prince Regent to inform you that it is with great concern that he is obliged to announce to you the continuance of his Majesty's lamentable indisposition.

The Prince Regent is persuaded that you will deeply participate in the affliction with which his Royal Highness has been visited, by the calamitous and untimely death of his beloved and only child the Princess Charlotte. Under this awful dispensation of Providence it has been a soothing consolation to the Prince Regent's heart, to receive from all descriptions of His Majesty's subjects, the most cordial assurances both of their just sense of the loss which they have sustained, and of their sympathy with his parental sorrow; and amidst his own sufferings, his Royal Highness has not been unmindful of the effect which the sad event must have on the interests and future prospects of the Kingdom.

We are commanded to acquaint you that the Prince continues to receive from foreign powers the strongest assurances of their friendly disposition towards this country, and of their desire to maintain their general tranquillity.

His Royal Highness has the satisfaction of being able to assure you, that the confidence, which he has invariably felt in the stability of the great sources of our national prosperity, has not been disappointed.

The improvement which has taken place in the course of the last year, in almost every branch of our domestic industry, and present state of public credit, affording abundant proof that the difficulties under which the country was laboring were chiefly to be ascribed to temporary causes.

So important a change could not fail to withdraw from the disaffected the principal means of which they had availed themselves for the purpose of fomenting a spirit of discontent which unhappily led to acts of insurrection and treason, and his Royal Highness entertains the most confident expectation, that the state of peace and tranquillity to which the country is now restored, will be maintained against all attempts to disturb it, by the persevering vigilance of the magistracy and by the loyalty and good sense of the people.

Gentlemen of the House of Commons,

The Prince Regent has directed the estimates for the current year to be laid before you.

His Royal Highness recommends to your continued attention the state of the public income and expenditure, and he is most happy in being able to acquaint you that since you were last assembled in Parliament, the revenue has been in a state of progressive improvement in its most important branches.

My Lords and Gentlemen,

We are commanded by the Prince Regent to inform you, that he has concluded treaties with the courts of Spain and Portugal, on the important subject of the Abolition of the Slave Trade.

His Royal Highness has directed that a copy of the former treaty should be immediately laid before you—and he will order a similar communication to be made of the latter treaty, as soon as the ratification of it shall have been exchanged.

In these negotiations it has been His Royal Highness's endeavor, as far as circumstances would permit, to give effect to the recommendations contained in the joint address of the two houses of Parliament; and his Royal Highness,

has a full reliance on your readiness to adopt such measures as may be necessary for fulfilling the engagement into which he has entered for that purpose.

The Prince Regent has demonstrated to direct your particular attention to the deficiencies which have so long existed in the number of places of Public Worship, by praying to the established Church, when compared with the increased and increasing population of the country.

His Royal Highness must earnestly recommend this important subject to your early consideration, deeply impressed as he has no doubt you are, with a just sense of the many blessings which this country by the favor of Divine Providence has enjoyed—and with the conviction, that the religious and moral habits of the people are the most sure and firm foundation of national prosperity.

Price of Stocks—3 per cent. reduced 80 1 1/4 80 79 3-4; 3 per cent. consols, 79 79 1 1/4 1-8; 5 per cent. navy annuities, 104 3 3/4 4 1-8 5 per cent. navy annuities, 104 3 3/4 1-4 1-2.

There continues to be great fluctuations in the funds; consols opened this morning at 79 1-2, went up to 79 3-8 and then declined, at one o'clock, to 79 1-4.

A meeting was held yesterday, at the Crown and Anchor Tavern, convened by many respectable and intelligent persons, to consider of the causes which have led to the late increase in the price of Porter. It would be superfluous to insist upon the value of this beverage to the laboring classes of the community, and the great importance of its being supplied to them both cheaply and without adulteration. The misfortune, however, is, that while the former is rarely, the latter perhaps is never, attained; so that the poor man though he pays dear for what he drinks, has not the satisfaction of drinking what is wholesome and nutritious. We shall be glad to learn that the proposed efforts of this meeting are successful. We do not wish to excite or encourage popular clamor against monopolies, a word often rashly and mischievously applied. But a *prima facie* case does appear to be made out against the brewers, with regard to an unnecessary augmentation of the price of Porter. It will be for them to disprove the suspicion by a satisfactory exposition of the causes which have occasioned it. If they do not come forward, the public will have a right to infer that they cannot, and they must then expect to incur the inevitable consequences. We wish, however, it were as practicable to prevent the use of deleterious drugs in the composition of beer, as we think it is to counteract a monopoly in its supply.

We have received N. Orleans papers to the 7th ult. They do not contain any news respecting Mina, nor do they give any inelligence respecting Mexico.

We are happy to say, the Duke of York is so much recovered from his late accident, as to be able to take an airing in his carriage on Sunday and yesterday. The state of the country is evidently improving very fast. The enquiry after farms that are not very much rack-rented has left not many farms under, and the present prices of grain are such that no reasonable farmer can complain of his profits; while the state of the funds has induced numbers of moped men to become purchasers of land.

Common Council.

MARCH 9, 1818.

Jacob Hoffman, esq. the mayor elect, appeared and had the oath of office administered to him by Thomas Vowell, esq. a justice of the peace, in the presence of the Council.

Fan-Sash Making.
METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expense in procuring the necessary preparations, and relies on public enterprise for success in the undertaking. Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as if in town. JAMES T. HOLLAND. February 19

Sully for Sale.
THIS Estate, situated in the county of Fairfax, twenty two miles from Alexandria, and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil which was originally excellent, has for some years past had the advantage of improving husbandry, Plaster of Paris acting with powerful and immediate effect on all grasses and grains. The fields present a good surface for cultivation; and those now untilled are covered with red clover. The orchards are very large and thrifty; the collection of table fruit is choice and various. The mansion is spacious and well constructed; the out-houses are conveniently situated, and the whole have been lately thoroughly repaired and painted. The farm houses, which are all nearly new, are expensive and excellent in their kind. For a gentleman of leisure this would be a delightful residence; and a profitable estate for an active farmer. The title is indisputable, and perfectly unimpaired. A number of well taught orderly young men, with good stock and farming utensils of all kinds and the crops of the present year if desired, will be at the command of the purchaser. Application may be made to the subscriber, living on the premises, next the post-office at Pleasant Valley, in Fairfax. FRANCIS LIGHTFOOT LEE. September 19 10st
